

Controls and compliance checklist

Project Description

Botium Toys is a growing U.S.-based toy company expanding its online presence in the U.S. and internationally. This activity involved conducting an internal IT audit to assess the company's security posture, risks, and compliance requirements. Using the **NIST Cybersecurity Framework (NIST CSF)**, I reviewed the audit scope, goals, assets, and risk assessment. I then completed a **Controls and Compliance Checklist** to identify security controls, risks, and compliance gaps.
